Dear Parents/Carers,

As part of Year 2's 'Coastline' project, we would like for the children to share a photograph of themselves at a coastal location, if they have one. The photograph does not have to be on the beach or in the sea, it could be beside some cliffs, at the amusements, at a Punch and Judy show or just outside in the fresh air. A teaching point for the photographs will be to discuss human and physical features of the coastline.

We would be grateful if you could email your child's photograph to their class teacher. These photographs will only be used for display purposes within school. Please can these photographs be emailed by the 15th April 2024 as we will be using them in our first week of teaching.
